

Cadastral Data Forum and Workshop

February 12-14, 2001

BLM Office Building

Montrose, Colorado

This will be a workshop to explore the opportunities to integrate survey, assessor and clerk/recorder data from both the federal and the state land records systems.

Last year the Western Governor's Association passed a resolution supporting cadastral efforts throughout the West. I have included some copies of the resolution for your reading and below is a link to the full text.

This workshop may be changed to reflect the interests of the conference.
- 2:30-2:45 Break
- 2:45-5:00 Data to make maps rather than maps to make data. Why we should work together.

Wednesday, Feb 14th

- 8:30-11:00 This is a session for anyone who wants to hang around and participate. Topics that will be discussed are at least the following
- ?? Partnerships and Collaboration
 - ?? How should we proceed
 - ?? What can we do in the Short Term?
 - ?? What can we do in the Long Term?
